Product Change Notification

Change Of Welding Of Housing Parts

Products affected: DHS 901, DHS 901 NF, DHS 901 J, DHS 901 K
DHS 902, DHS 902 NF, DHS 902-1
DHS 902-1 NF, DHS 902 J, DHS 902 K
DHS 904, DHS 904 NF, DHS 904 J, DHS 904 K
DHS 906, DHS 906 NF, DHS 906 J, DHS 906 K
DHS 908, DHS 908 NF, DHS 908 J, DHS 908 K
DHS 910, DHS 910 NF, DHS 910 J, DHS 910 K
DHS 912, DHS 912 NF, DHS 912 K

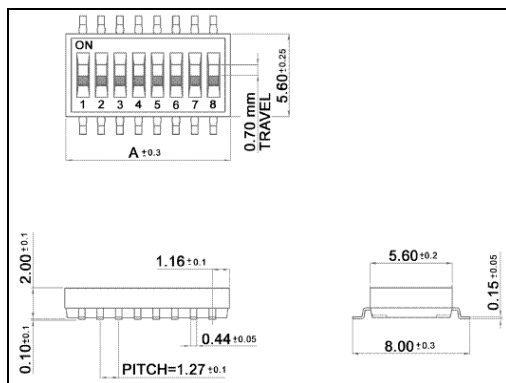

Effective date: after stock-clearance

Details:

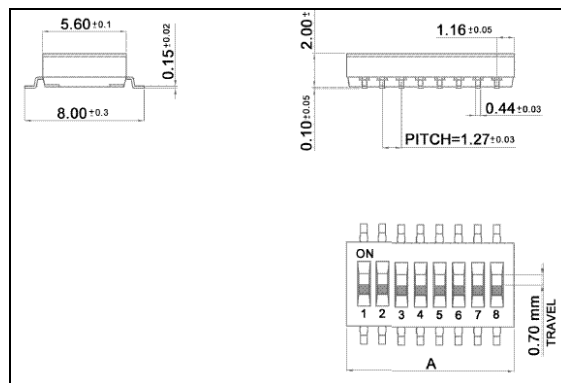

Up to now the lid was inserted into a cut-out of the base part and ultrasonic welded.

To increase the robustness the lid was now changed to an upper case part with same cross-section as the base.

Due to this, the welding line moves towards the side walls. This allows a more aligned and stable welding quality.

up to now

from now on

knitter-switch, September 2013
