

# knitter-switch

## Product Change Notification

Product Affected: MMS 129 R

Effective date : immediately

### Details:

In order to increase robustness and operating temperature range the following measures were taken:

The thickness of cover plate was increased from 0.15 to 0.2 mm. Accordingly, the total height of the component is increasing by 0.05 mm.

The material of the spring-plate, phosphor bronze, is now stainless steel.

The PCB layout was revised (but there is no need to modify existing PCBs).

As a result the operating temperature range is now -20 ... + 85 °C.
