

Product Change Notification

Product affected: STA 106 D, E, F, G, H with and without suffix "-PC"
STA 206 N, P, PA, R, S, SA, T, TA with and without suffix "-PC"
STA 306 D, DG, E with and without suffix "-PC"
STA 406 N, P, PA with and without suffix "-PC"

SPA 106 F with and without suffix "-PC"
STA 206 R with and without suffix "-PC"

Effective date: after current stock is sold out

Bushing material changing: old – brass, nickel-plated
new – zinc, die-casted

Details:

Material is changed for standardization reasons.

Due to material characteristics of zinc, the shape of the bushing/sleeve changes marginally. When using the supplied standard mounting accessory, new bushing type switch appearance is same as the old one.
Separate drawing is available on demand.

The changing will not modify any electrical, mechanical or other properties.

knitter-switch, September 2008
